INTRO

Skills:

* Software development: Proficient in developing web and mobile applications using Java, Python, HTML, CSS, and JavaScript. Experienced in using frameworks such as Bootstrap spring boot and react.

* Communication: Confident and clear communicator with a flair for writing and presenting. Skilled in creating engaging and informative content for various platforms and purposes. Collaborated with cross-functional teams and external partners on IT projects and initiatives.

* Cloud computing: Proficient in using cloud-based services and platforms for IT purposes. Implemented cloud-based backup and recovery solutions using AWS S3 and Glacier for data protection and disaster recovery.

* Security: Knowledgeable in IT security risks and best practices. Protected IT systems and data from cyberattacks, malware, unauthorized access, or data breaches.

* Teamwork: Effective teamwork skills, with the ability to work well with others and contribute to IT project goals. Participated in various IT projects and initiatives with cross-functional teams. Achieved high performance and quality standards as a team player.

WORK EXPERIENCE

Attachment
Sotik Tea Company • Jun 2022 – Sep 2022

Achievement:

* Spearheaded the development of a new feature that drove a 25% increase in monthly active users and a 15% increase in average revenue per user

* Streamlined the development process by implementing Agile methodologies and automated build testing; reduced software delivery time by 45% and decreased bug rate by 20%

* Led a three-member team in producing 54 maps with geolocation data and polygon shapes for 10% of farms with GIS technology and methods.

* Provide technical assistance to customers and staff. Troubleshot and resolved software and hardware issues, installed and configured new devices, and performed regular system updates. Achieved 95% customer satisfaction rate and reduced average call time by 10%

Projects:

* Portfolio website. A website that displays your work samples, such as screen captures of your programs, descriptions of their features and purposes, and a contact form for inquiries. This project can demonstrate your skills in web development, HTML, CSS, and JavaScript.

* Built a user-friendly web app with Spring Boot and Bootstrap to streamline school student management processes, such as enrollment, attendance, grading, and reporting

* Developed web applications using HTML, CSS, JavaScript, and PHP, including e-commerce, education, and entertainment websites. Implemented user authentication, payment integration, content management, and analytics features. Received positive feedback from clients and users for user interface design and functionality. Increased website traffic a conversion by 50%.

EDUCATION

Bachelor of Science in Information Technology
Kisii University • Sep 2017 – Dec 2022

Relevant coursework: Data Structures, Programming Languages, Database Management, Operating Systems, Software Engineering

SKILLS

Geographic information systems (GIS) Web service and application development Database administration

Github (or other software version management systems) IT equipment installation and configuration

Office tools: Word, Excel, Outlook IT support Database query languages (SQL, others) Bootstrap

CERTIFICATES

LANGUAGES

English
Spoken: Fluent • Written: Fluent
